Introduction

1

1.1 Version history

Version	Description	Author	Date
0.1	Initial draft	JK	29/01/2014

1.2 Purpose

The purpose of the document "architecture" is to thoroughly describe the architecture of the entire system.

1.3 Scope

The design and architecture described in this document is made to break down the system into smaller blocks with simple interfaces. The document is based upon the requirements established in the requirement specification.

1.4 References

Requirement specification.

1.5 Glossary

Term	Definition
------	------------

Structural architecture 2

2.1 Introduction

This chapter describes the structural architecture of the system in a top down approach.

2.2 System breakdown

Behavioral architecture 3
